December 12th-15th, 2019

41th International Asilomar Chromatin, Chromosomes and Epigenetics Conference

Asilomar Conference Grounds, Pacific Grove, California
U.S.A.

Keynote Speakers:
Prof. Josee Dostie (McGill University, Canada): LncRNAs at the Nexus of Chromatin Landscape and 3D Organization.
Dr. Paola Vagnarelli (Brunel University, UK): Protein Phosphatases and Histone Variants: New Regulators of Heterochromatin Maintenance

Featured Sessions: Transcription, Replication and Repair;
Epigenetics, Cell Differentiation and Disease
Telomeres and Centromeres
Nuclear and Genome Organization
Chromatin Remodelling and Histone Variants

Why Asilomar?
Prioritizes giving trainees platform to present their work to an international research audience.

Organizers:
Sally Pasion (pasion@sfsu.edu)
Michael Goldman (goldman@sfsu.edu)
Philippe Georgel (georgel@marshall.edu)
Juan Ausio (jausio@uvic.ca)
Christopher Eskiw (ceskiw@usask.ca)
